

MICROSOFT BUSINESS SOLUTIONS-Navision

Microsoft Navision is an integrated business management solution designed for growing mid-market companies that want the freedom to focus on their business. It is ideal for companies looking for one solution they can implement rapidly, learn and use easily, and customize and maintain with minimal disruption to their business.

Increase productivity

Boost productivity in every area of your business by automating and integrating critical operations into a highly efficient work environment.

- Provide concurrent, online access to integrated, updated data
- Create a highly efficient work environment
- Maximize operational efficiency

Sharpen your competitive edge

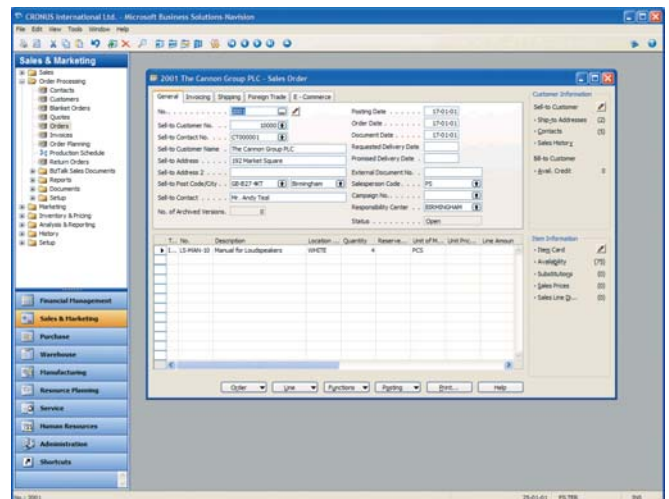

Powerful, flexible analytical tools give you a complete view of your business-from big-picture insights to specific details-to support fast, accurate, and strategic decision making.

- Understand business trends, opportunities and problems
- Run your business 24 hours a day
- Improve customer satisfaction

Grow your business

Get started fast with a solution designed for painless implementation and easy customization. Backed by partner expertise, you can add more capacity and adapt to changing market conditions with a business solution that positions your company to grow into its future.

- Collaborative-Grow with the local backing of a global partnership
- Adapt to change without disrupting your business
- Invest in a path to the future

Connect employees, partners, and customers across the global marketplace

Provide employees, partners, and customers across a global marketplace with information and processes tailored to their precise needs, helping you manage your supply chain more effectively, satisfy customers, and manage administrative processes regardless of location.

- Connect information and processes
- Collaborate freely, yet protect information
- Work without barriers across a global market

Microsoft Business Solutions-Navision integrates critical financial, manufacturing, distribution, relationship management, and e-commerce data into a streamlined, comprehensive solution for growing mid-sized businesses.
